Key Benefits

Perfectly balanced, entertains everyone brilliantly | Bringing out the depth and detail in every scene. Powered by our XR Processor, with extreme brightness and astonishing contrast, our TV delivers truly exhilarating pictures that are sure to entertain and delight all. Our theatre-like sound powered by Acoustic Multi Audio ensures what you see and what you hear are perfectly matched and you can enjoy an almost endless library of apps & content via the intuitive Google TV platform.

Remarkable contrast. Professional monitor core technology | Puts you right in the scene. Similar to the backlight control core technology in our master monitors professional monitors, XR Backlight Master Drive with a unique local dimming algorithm controls thousands of LEDs accurately for impressive contrast.

Crystal clear pictures, with even fast-moving action staying smooth, bright and crisp | XR Clear Image uses a custom database to intelligently convert your favourites to near 4K. Noise is minimised by XR Clear Image through zone division and dynamic frame analysis. XR Motion Clarity™ analyses movement across several frames and precisely synchronises the backlight with on-screen motion so you see clear, bright images, however fast the action.

Edge-of-your-seat sound, cinematic and dramatic | Sit back and enjoy expansive cinema-like sound with Acoustic Multi Audio™. With two powerful side-mounted speakers reproducing clear sound from the screen, your family and friends will feel like they're at the cinema.

One Slate. Sophisticated from everywhere | Totally unified. Our One Slate concept fuses screen and bezel into a single slate, minimising distractions and maximising your experience and a 4-way stand delivers flexibility to suit all furniture and living rooms design.

Entertainment you love. With help from Google | Google TV™ brings together movies, shows, and more from across your apps and subscriptions and organises them just for you. Browse 400,000+ movies and TV episodes from across your streaming services, all in one place and organised into topics and genres based on what interests you.

Eco Dashboard 2 - Check your eco settings. See your power usage | Easily change eco settings, individually or in one go. Eco Dashboard 2 puts everything conveniently in one place and can even monitor your power consumption for optimum efficiency.

BRAVIA 7 FWD-XR70

- 4K HDR QLED (XR | Mini LED)
- XR™ Cognitive Processor
- XR Backlight Master Drive
- Acoustic Multi Audio
- Google TV

* The backlight control of Master Monitor BVM-XH3110, used for final image quality checks at Studios, and XR Backlight Master Drive in BRAVIA were developed based on the same Sony core technology. Apps must be compatible with TV. App availability varies by region and device.
