AC-EXUSB-2-KIT

100 METER HIGH SPEED USB 2.0 HDBᴀꜱᴇT EXTENDER

QUICK START GUIDE

The AC-EXUSB-2-KIT is a simple solution for extending USB 2.0. This product features bi-directional POE and is capable of sending 4 devices using a full 480Mbps signal up to 100 meters over traditional cat 5e to a single host. This low cost solution is an easy way to bring back necessary USB 2.0 cameras, microphones, and HID devices allowing connectivity to a single device.

SETUP

1. Connect up to 4 USB 2.0 Devices to the AC-EXUSB-2 DEVICE USB Type A Device ports.

2. Connect the AC-EXUSB-2 DEVICE to the AC-EXUSB-2-HOST using Cat 5e or better.

3. Connect the AC-EXUSB-2-HOST to PC or similar device using the USB Type B Host port.

4. Connect power to preferred side to provide power to both devices.

TROUBLESHOOTING

*   No Video from USB Camera – Ensure USB Camera is not USB 3.0. If two or more USB 2.0 Cameras they may exceed bandwidth together. A lower resolution may have to be used.

*   No KVM extension – Ensure that the USB Host is securely connected.

*   No POE – Try power at other end. Ensure no the Category run has not been damaged
